### Committee and Steward Solicitations

In the very near future, the local shall be soliciting the membership for interested individuals that desire to work on various committees as well as for stewards. More information will be forthcoming in the very near future.

### Chain of Command

There will be a transition between the past administration and the newly elected officers of the local.

President Engelhart has indicated that all officers have their respective duties and responsibilities. There has always been a chain-of-command and it will continue to be followed.

For those members that do not know the chain, it is as follows:

An employee should see their area steward who is responsible for their area. The Chief Steward of the tour is responsible for the tour and the stewards. The Clerk Craft Director is responsible for the craft they represent and all tours-facilities. The Vice President is responsible for all crafts, tours facilities, and ultimately the President is responsible for everyone. Employees should follow the chain-of-command with any questions or complaints. The struggle continues.....
